

Y35

DESCRIPTION

NEW MODEL

Availability scheduled on June 20th, 2020

The Y35 is a powerful boat with elegant shapes. By its versatility, it offers all the rowing sensations of a racing quad while keeping an easy grip on it. Rowers looking for performance will be surprised by its responsiveness. It is the fruit of a long experience and will push you to always be more efficient.

A new design with fine curves for a boat well balanced and cut for speed gives it the versatility that makes it an ideal boat for everyone. Its structure reinforced by partitions (PU/glass and PVC/Carbon) gives it a rigidity allowing to row straight and to surf the waves.

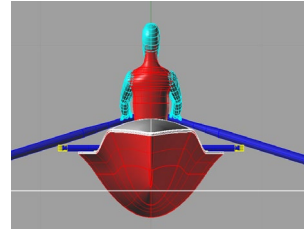

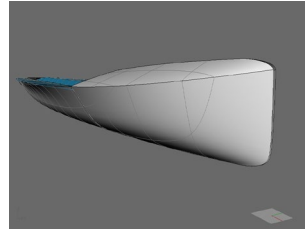

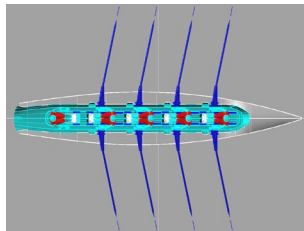

It is designed for all those who are looking for sensations.

VERSION CLUB

Realization by wet way or in contact / soric sandwich + expanded PVC / epoxy glass, partitions and fills.

VERSION CARBONE

Wet or contac production, soric sandwich + epoxy carbon PVC / carbon partitions and reinforcements
